Weight	Starting at: 5.5lb / 2.49kg (weight will vary by configuration)	
Power	6-cell (47 WHr) Lithium-Ion battery, 65W HP AC Adapter, HP Fast Charge ¹¹	
Warranty	Limited 1-year warranty, 1-year limited warranty on primary battery. HP Care Pack Services extend service contracts which go beyond your standard warranties. For more details, visit http://www.hp.com/go/lookuptool	

Footnote

1. Certain Windows Vista product features require advanced or additional hardware. See www.microsoft.com/windowsvista/getready/hardwarereqs.mspx and www.microsoft.com/windowsvista/getready/capable.mspx for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradeadvisor.
2. Dual Core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from this technology. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information.
3. Do not copy copy-right protected materials. Intended for creation and storage of your original material and other lawful uses. Double Layer discs can store more data than single layer discs. Double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6 GB Single Sided/5.2 GB Double Sided – Version 1.0 media.
4. Wireless access point required and not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract.
5. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8 GB (for XP) and 10 GB (for Vista) of system disk is reserved for the system recovery software.
6. Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by program.
7. Sold separately or purchased as an optional feature.
8. Operates at a maximum of 533 MHz with Celeron processor.
9. GM965 only, GL960 has a maximum of 2048 MB.
10. This Windows Vista® Business licensed product will ship to you with Genuine Windows XP Professional custom installed on the hard drive. Customers buying these downgraded systems are expected to purchase at least 25 licenses annually.
11. HP Fast Charge technology recharges your battery up to 90% within 90 minutes when the system is off.
