

## HP LCD MONITOR QUICK RELEASE

A uniquely flexible LCD monitor mounting solution for HP thin clients and VESA-compliant devices.

HP offers a variety of optional products designed to complement and enhance your overall computing experience. The HP LCD Monitor Quick Release is the newest option designed for use with VESA-compatible LCD monitors.

### HP Quick Release

This easy-to-use solution allows you to quickly and securely attach an LCD monitor to a stand, bracket, arm or wall mount, or another device such as an HP thin client.

### Usage scenarios

HP Quick Release enables uniquely flexible product configuration alternatives such as:

- **Storefronts/kiosks:** All-in-one setups for easy viewing, and add touchscreens for interactivity
- **Trade shows:** Securely mount setups and quickly remove at the end of the day
- **Front office environments:** Minimize desk space clutter with wall or swing arm mounting or "sandwich" configurations
- **Medical/institutional settings:** Secure mounting in nursing stations and public areas
- **Conference rooms:** Mount on ceilings, tables, walls, or swing arms

### Compatible with select HP products

HP Quick Release is compatible with all HP LCD monitors and select thin clients, including:

- **HP essential series:** Competitively-priced monitors with essential performance features
  - Use the HP Quick Release to mount the monitor on its own or with a third device, such as an HP thin client, on a wall, mounting arm, or bracket, once the stand is removed
- **HP advantage series:** Advanced presentation and user-comfort features
  - Use in a variety of configurations once the monitor stand is removed
- **HP performance series:** Premier presentation features
  - Built-in HP Quick Release enables a variety of mounting scenarios
- **HP thin clients:** Deliver desktop-like features and support for local applications, a choice of Microsoft® Windows® XP or Debian Linux®, embedded, expanded option support, and a full-featured browser. A VESA-compliant four-hole pattern in the chassis enables compatibility with the HP Quick Release for mounting on its own or with a monitor.

HP business monitors and accessories are backed by comprehensive HP service and support from 65,000 IT professionals in 160 countries around the world.

# HP LCD MONITOR QUICK RELEASE

<b>Part number</b>	EM870AA				
<b>Configuration</b>	Two interlocking mounting plates				
<b>Dimensions</b>	<b>Packaged (H x W x D)</b>	7.8 x 6.25 x 1.5 in (19.8 x 15.9 x 3.8 cm)			
	<b>Unpacked (H x W x D)</b>	6.3 x 5.2 x 0.65 in (16 x 13.2 x 1.65 cm)			
<b>Weight</b>	<b>Packaged</b>	1.1 lb (0.49 kg)

*Requires removal of the monitor head from the monitor stand prior to mounting HP Quick Release. **Requires use of a second HP Quick Release attached to the base of the monitor stand. ***Requires two separate Quick Release devices					
<b>Compatible thin clients</b>	HP Compaq t5135, t5530, t5720, and t5725 Thin Clients				
<b>Supported weight capacity</b>	The HP Quick Release has been designed to support a maximum of up to 24 lbs (10.9 kg) depending upon the mounting configuration used. Please note this is a total weight limit for all devices mounted. Because mounting surfaces vary widely and the final mounting method and configuration may vary, mounting fasteners are not supplied (other than the VESA-compliant screws). HP recommends that you consult with a qualified engineering, architectural or construction professional to determine the appropriate type and quantity of mounting fasteners required for your application and to ensure that your mounting solution is properly installed to support applied loads.				
<b>Warranty</b>	The HP Quick Release has a one-year limited warranty. Technical support is available seven days a week, 24 hours a day, by phone, as well as online support forums. Certain restrictions and exclusions apply.				
<b>Notes</b>	1. No HP monitors allow positioning of a thin client product between a monitor screen and its stand. 2. The Quick Release device is not to be used between a monitor screen and its stand unless provided that way from the factory. 3. Under no circumstances is the Quick Release device intended to be used in an orientation where the Release/Lock lever is oriented downward.
